

## Sample Questions from Our Study Kit

The following questions, and others in our full Study Kit, replicate **real test questions**. We know this from taking the test every year, and from our unparalleled experience with competitions exclusive to the federal public service.

- Sample questions the government makes available are few and misleadingly easy.
- Questions found on the internet that may seem similar are not relevant to this test.
- Sample questions in books and online services are not properly structured, and counterproductive in preparing for the actual test.

In short, free questions and numerous low cost samples of the wrong type won't help you. Here are some samples to show what you really will face on test day.

## SJT Sample Test # 1 – 100 Questions
